

Use of ICT enabled techniques by the faculty

The college gives prime importance to impart quality education. For this purpose, the college encourages modern methods teaching. The college has taken noticeable initiatives to gather the necessary infrastructure and associated tools. Stress has been laid upon making the teaching-learning more student centric with view of modern teaching methods.

The institution has developed e-classrooms with audio-video facilities, installed LCD projectors in rooms to imbibe the ICT while learning. The e-classrooms are equipped with computers, internet, LAN connectivity, projectors and screens, green-boards. Teachers make use of google classrooms to share study material, google forms to conduct tests and quizzes and communicate the announcements.

Mr. DhirajB. Channekar guiding the students.

Dr. Ashish R. Choudhary delivering his lecture.

Mr. Pratik M. Gaiki discussing a topic with students.

Students engaged in the computer room of the college.
